

Roland Micro Cube Amp

It's hip to be square.

Travels with you wherever you play!

Runs on 6 AA Batteries or AC power with the adaptor that is included!

The Roland Micro Cube Battery Powered Amp with COSM and Effects gives guitarists a genuine Roland Cube amp in an ultracompact 7-pound package. Despite its tiny proportions, the MicroCube packs a big punch and comes with 6 DSP effects, 7 COSM amp models, and a new Digital Tuning Fork giving guitarists everything they need for killer tone on the go.

Roland Micro Cube Battery Powered Amp with COSM and Effects Features:

- **Ultracompact** portable DSP guitar amp with 5" speaker
- **Looking for the sound** of Roland's JC-120 Jazz Chorus™ or your favorite British combo amp? You'll find those and more in the Micro Cube, thanks to 7 COSM amp models. Roland's COSM technology is the only modeling method that captures every nuance of the original amps—from the preamp and circuits to the speaker. All you need is the Micro Cube for perfect tone. And there's a special mic preamp model
- **High-Quality Effects** There's no need to lug around pedals when the Micro Cube comes with 6 DSP effects. All the essentials are included—from chorus and flanging to a phaser and tremolo effect. A separate Delay/Reverb processor lets you dial in anything from slapback and long delays to reverb and more (in addition to using one of the aforementioned modulation effects).
- **New Digital Tuning Fork and More** Tuning up is a snap using the new Digital Tuning Fork. Just press the Tuning Fork button (the harder you hit it the louder the sound) and you get an instant reference tone with support for flat tunings up to 2 semitones. The Micro Cube also comes with a choice of 1/4-inch and 1/8-inch stereo Auxiliary inputs—great for connecting a CD player or line-level instrument—plus a Recording/Headphones output. Take a Cube anywhere you go!

■ **Portability** Runs on 6 AA batteries for up to 20 hours with Micro Cube's high-efficiency amplifier or AC power (adapter supplied). A carrying strap allows you to take this amp anywhere you go!
